

MIPS REPORTING 2023

1

Quality Measures

Quality Measures

Required to Report on **6** measures
(1 High Priority or Outcome)

Quality Measures

EZDERM supports the following 8 Quality measures:

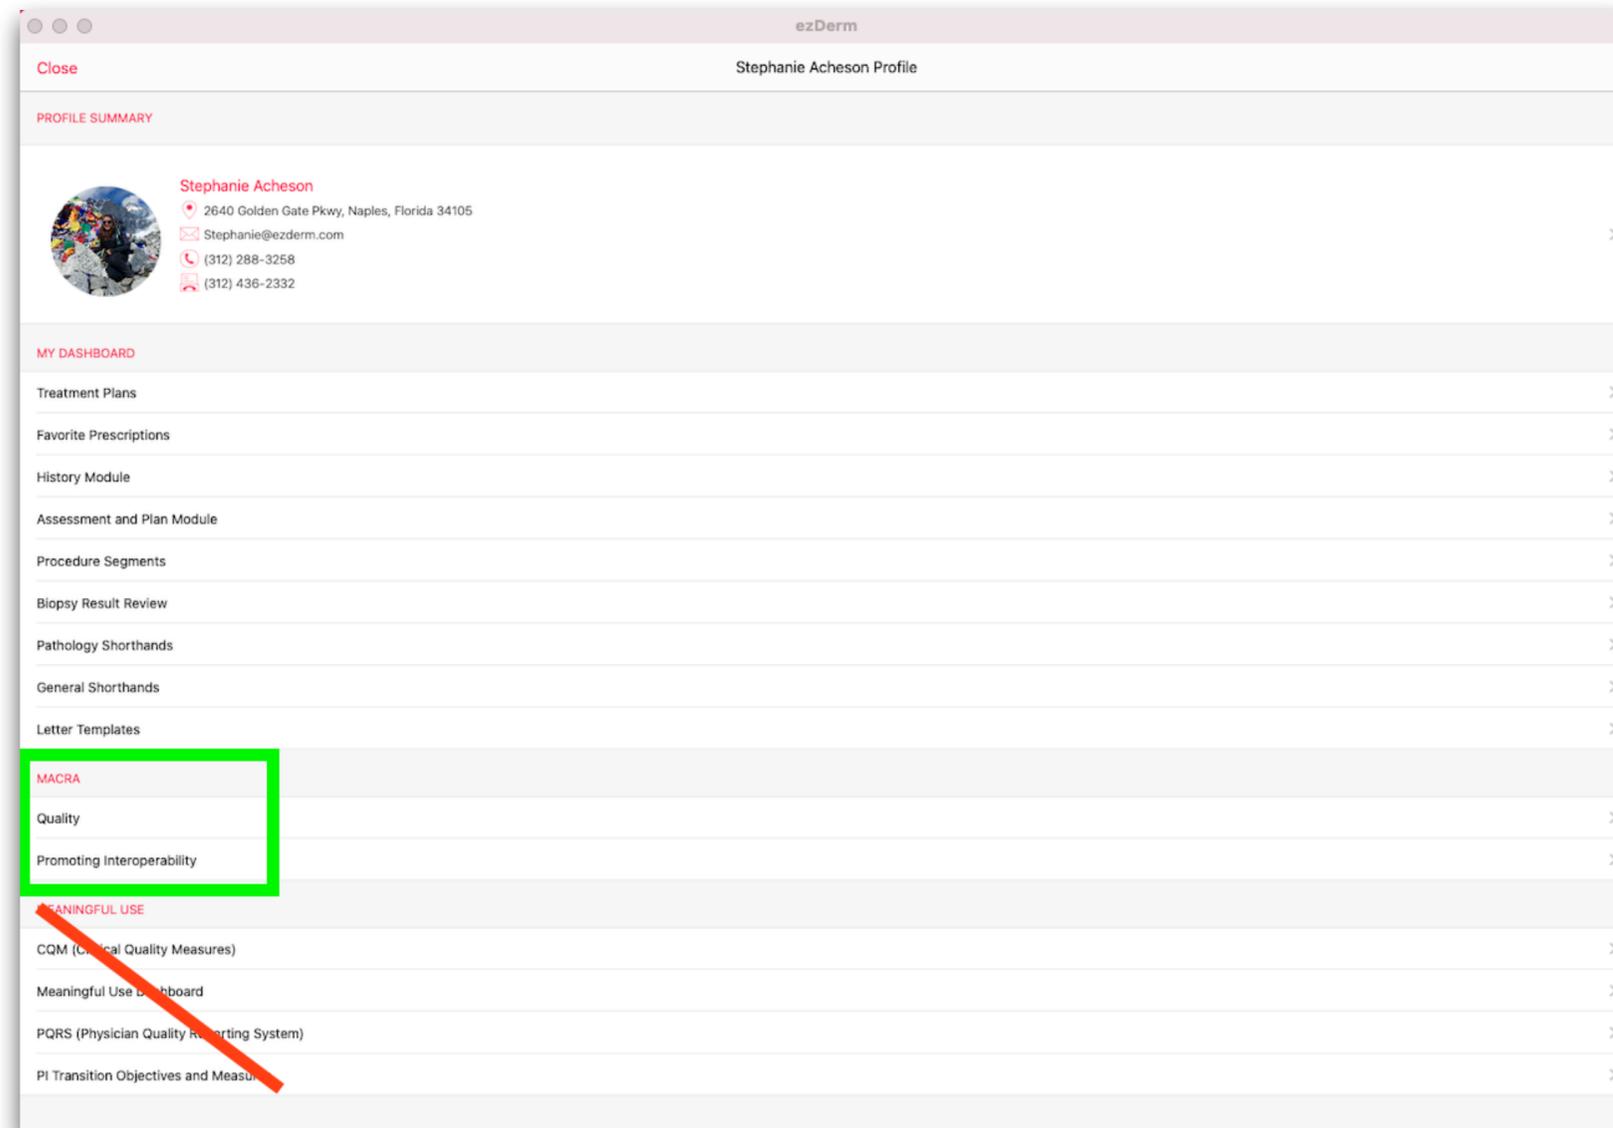

- **47:** Care Plan (*High Priority*)
- **128:** Preventive Care and Screening Body Mass Index and Follow Up Plan
- **137:** Melanoma: Continuity of Care - Recall System (*High Priority*)
- **138:** Melanoma: Coordination of Care (*High Priority*)
- **374:** Closing the referral Loop: Receipt of Specialist Report (*High Priority*)
- **402:** Tobacco Use and Help with Quitting Among Adolescents
- **410:** Psoriasis: Clinical Response to Oral Systemic or Biologic Medications (*High Priority & Outcome*)
- **440:** Basal Cell Carcinoma (BCC)/Squamous Cell Carcinoma: Biopsy Reporting Time (*High Priority*)

Quality Report

Performance Rate =
 All visits that met the criteria /
 (patients that have completed visits
 - patients that were excluded)

Goal = 100%

Reporting Rate =
 (MET + NOT MET + Exclusions) /
 visits that passed the Denominator

Goal = Greater than 70%

Report For: Jan 1, 2023 - Dec 31, 2023		Personal Note Done

265 - Biopsy Follow-Up: Communication and Care Coordination

CHOOSE ONE:

- Biopsy results reviewed, communicated, tracked, and documented (G8883)
- Clinician documented reason that patient's biopsy results were not reviewed, [e.g., patient asks that biopsy results not be communicated to the primary care/referring physician, patient does not have a primary care/referring physician or is a self-referred patient] (G8884)
- Biopsy results not reviewed, communicated, tracked, or documented (G8885)

TIP: To satisfy this measure, the biopsying physician and/or office and medical team must:

- Review the biopsy results with the patient
- Communicate those results to the primary care/referring physician
- Track communication in a log
- Document tracking process in the patient's medical record

Definition:

Communication – Acceptable communication methods which are to be documented in the biopsy tracking log and patient medical record include:

- Directly speaking with the patient or a person designated by the patient to discuss biopsy results
- Documented telephone message or voice mail regarding the availability of biopsy results
- Mailer/fax sent to the patient indicating the availability of biopsy results or discussing the diagnosis itself
- Any HIPAA secure electronic communication with the patient discussing the biopsy results

The components of a tracking log incorporate the following -

- Initials of physician performing the biopsy
- Patient name
- Date of biopsy
- Type of biopsy
- Biopsy result
- Date of biopsy result

For Denominator Exception(s), patients are ineligible for this measure if at the time of encounter there are patient reason(s) for not communicating the results to the Primary Care or referring physician (e.g. patient self-referred or has no Primary Care Physician, etc.) as further specified below.

Quality Measure Tips

Quality Measures

Measure Specific Videos on Support Portal:

[Measure #402: Tobacco Use and Quitting Among Adolescents](#)

[Measure #374: Closing the Referral Loop, Receipt of Specialist Report](#)

[Measure #128: BMI Screening and Follow-Up](#)

Tips

Measure 47: Add note under History Section regarding who is the surrogate decision maker, relationship, and phone number

The screenshot shows the EZDERM interface for Measure 47. The 'HISTORY' section is expanded, showing various options for travel and marital status. A dropdown menu for 'Advance Healthcare Directive' is open, showing the following fields:

- Finding: Active living will ⓘ
- Presence: Yes >
- Note: John Smith, husband, 201-456-7689 >

A green arrow points to the 'Note' field with the text: "Click on the word to get Note field".

Click on the word to get Note field

Tips

Measure 128: If you enter height and weight under Vitals section of Progress Note, BMI will auto calculate

Vital Signs	
Temperature	°F
BLOOD PRESSURE	
Systolic	mmHg
Diastolic	mmHg
Withings	>
Heart Rate	bpm
Withings	>
Respiratory Rate	rpm
WEIGHT	
Lbs Weight	140 lbs
Oz Weight	oz
Withings	>
Height	65 in
BMI	
Index	23.3
Classification	Normal

Tips

Measure 137: Use a To Do set as a reminder as the melanoma recall

Cancel Create To-Do Done

Tips

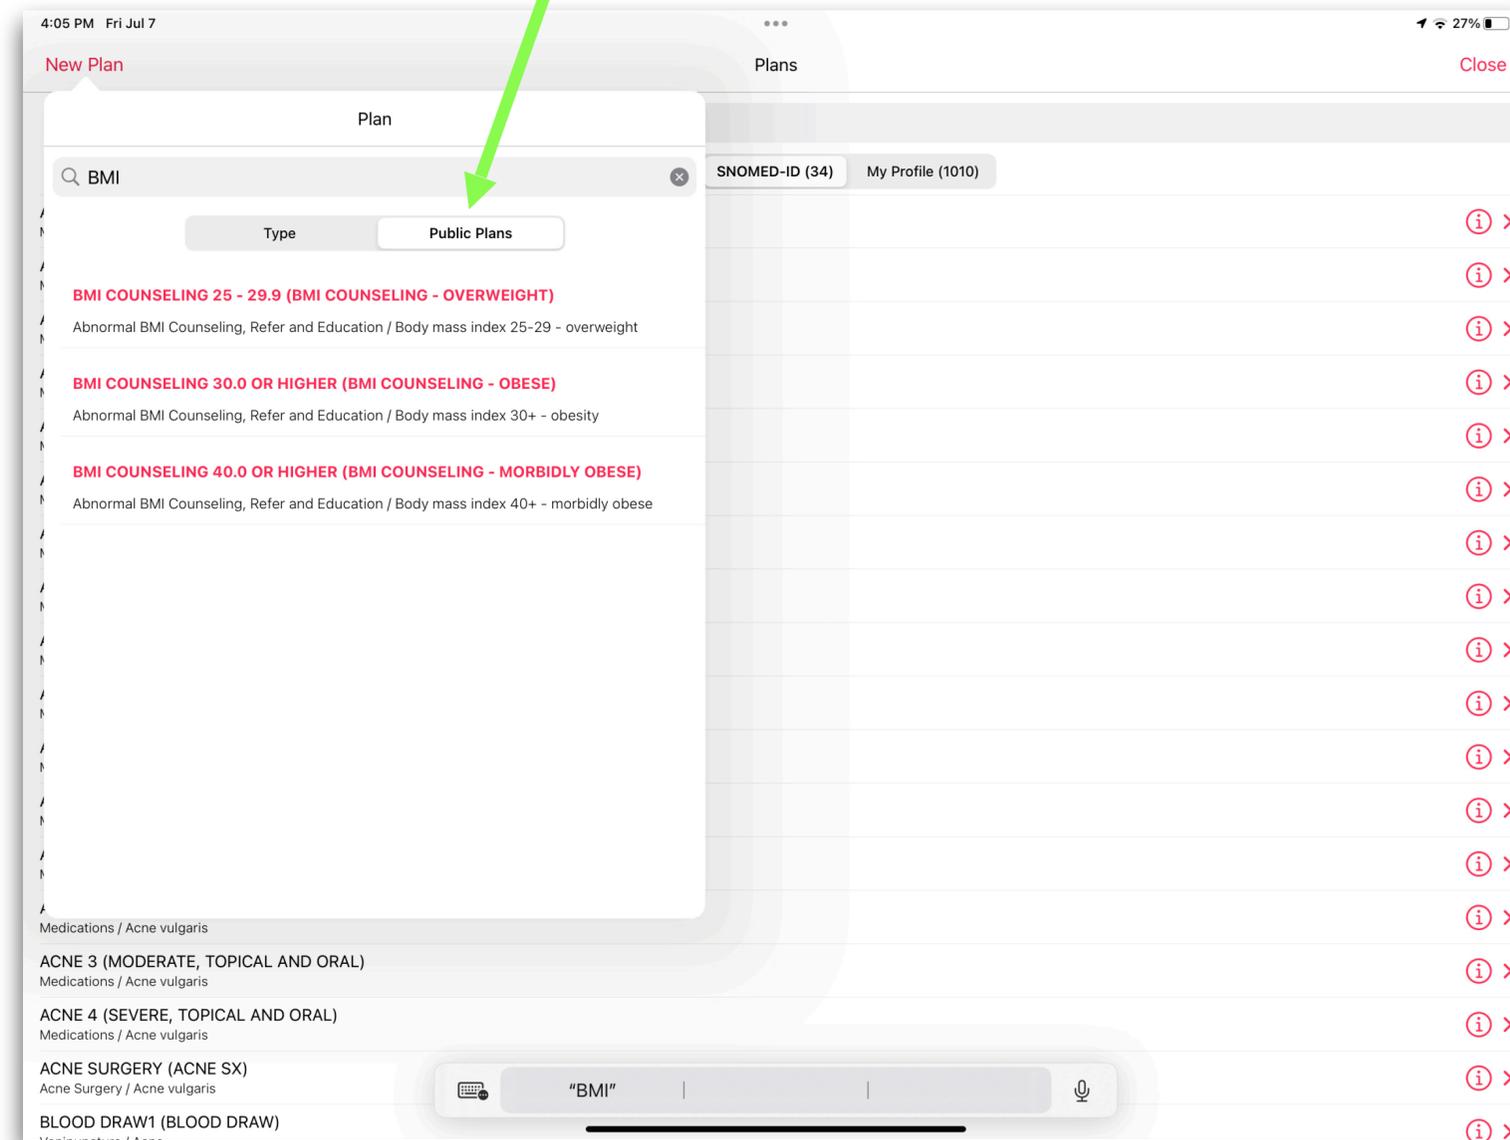

**Measure 138: Melanoma, Coordination of Care.**

“Percentage of patient visits, regardless of age, with a new occurrence of melanoma that have a treatment plan documented in the chart that was communicated to the physician(s) providing continuing care within one month of diagnosis”

If the provider is the one providing continuing care and not the referring physician or the patient's PCP, they can credit themselves for this measure.

Tips

Measure 128 & 402: Counseling Treatment Plans available under Public Database if not already part of provider plans

Tips

Measure 410: Make sure the diagnosis in treatment plan or impression field is Psoriasis Vulgaris (not just Psoriasis), if appropriate

ezDerm

Cancel Report For: Jan 1, 2021 - Dec 31, 2021 Personal Note Done

Measure	Performance Met	Denominator	Performance Not Met	Performance Exclusion	Performance Rate	Reporting Rate	Eligible Patients
337 - Psoriasis: Tuberculosis (TB) Prevention for Patients with Psoriasis, Psoriatic Arthritis and Rheumatoid Arthritis Patients on a Biological Immune Response Modifier	0	1	0	1	0.00 %	100.00 %	>
410 - Psoriasis: Clinical Response to Systemic Medications	0	1	0	1	0.00 %	100.00 %	>

Close

Percentage of psoriasis vulgaris patients receiving systemic medication who meet minimal physician-or patient-reported disease activity levels. It is implied that establishment and maintenance of an established minimum level of disease control as measured by physician-and/or patient-reported outcomes will increase patient satisfaction with and adherence to treatment

Tips

Measure 440: Option for the provider to address measure from Pending Review folder on the inbox

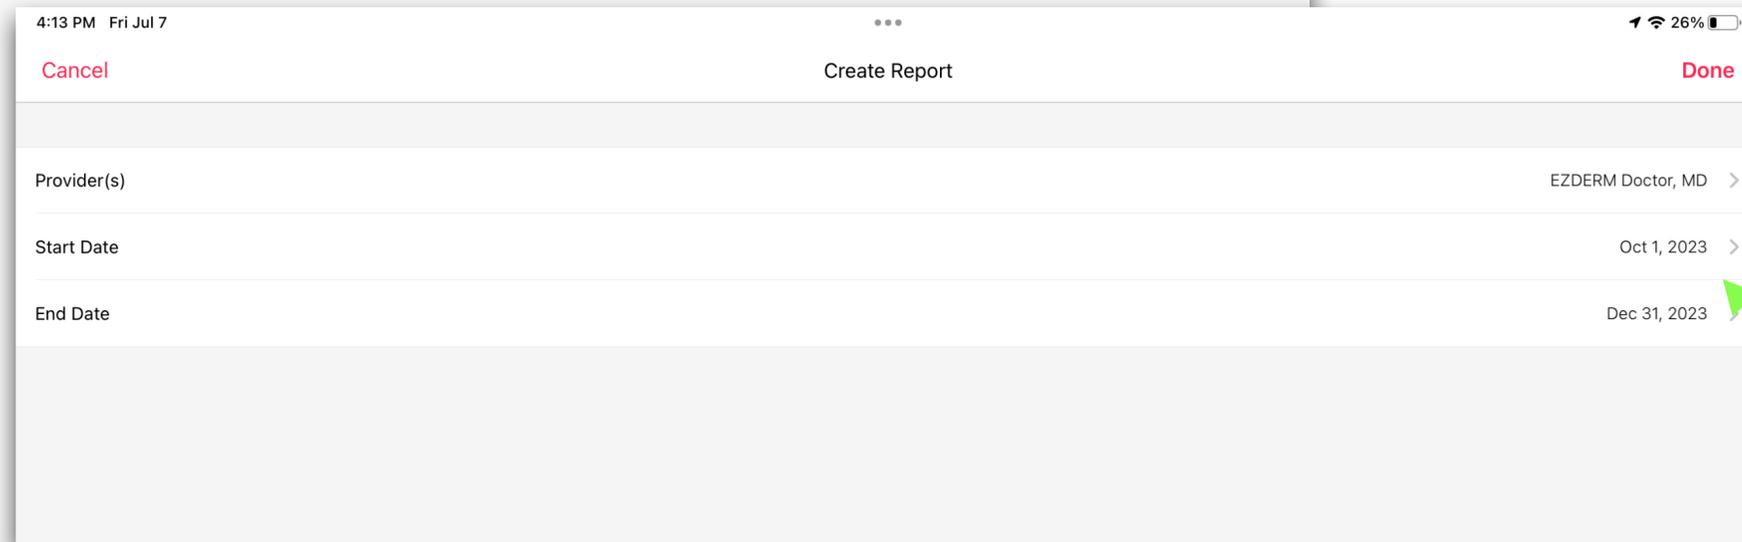

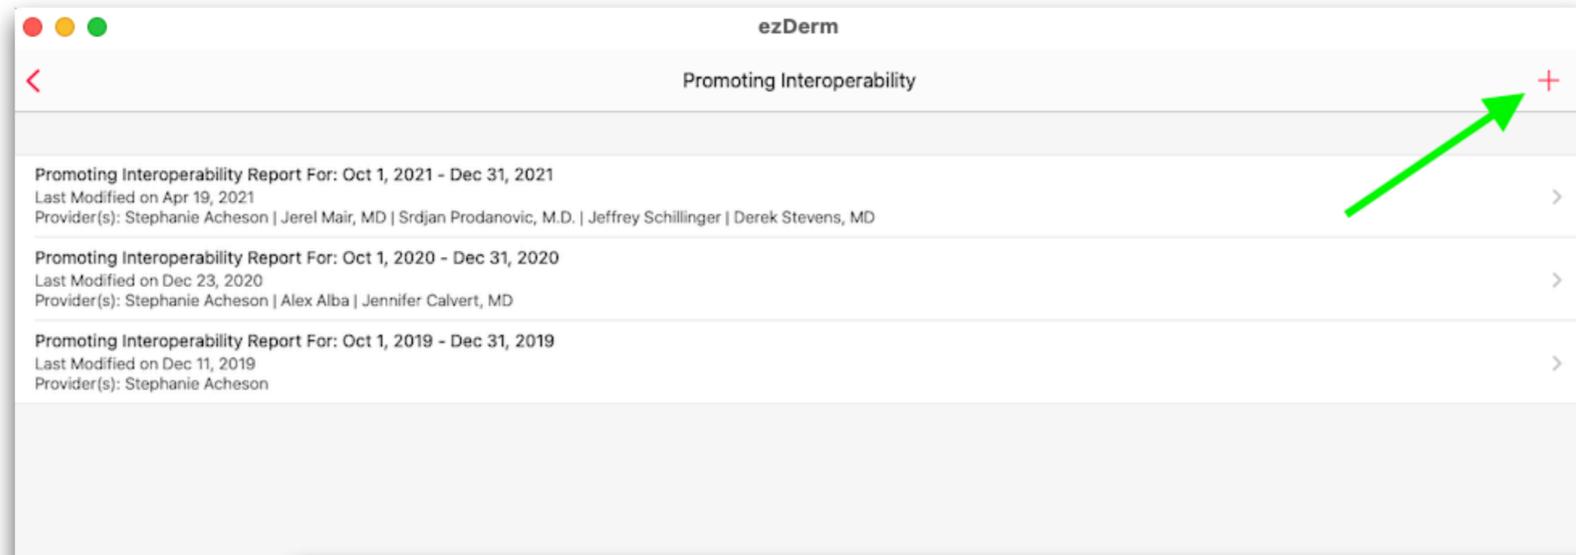

The screenshot shows the ezDerm interface for a patient named Rikki Lemon (♀ 17 | Jul 19, 2004). The interface is divided into several sections: Problem Status (Active), Progression (Undefined), MOHS APPROPRIATE USE CRITERIA (MAUC) (Calculate MAUC), DIFFERENTIAL DIAGNOSIS (Basal cell carcinoma of skin), CODING (Problem Points), PLAN (Add New Plan...), TO-DO'S (Add To-Do...), FOLLOW UP (Add Follow Up...), MACRA MEASURES (Biopsy results for NEW patients reviewed and communicated to the primary care physician and patient (265)), REFERRAL (Add Referral...), and Save As Template... The MACRA MEASURES section is highlighted with a green box, and a green arrow points to the toggle switch for the measure, which is currently turned on. The bottom of the interface shows 'Result Preview' and 'Problem List'.

*Toggle will be on by default if within 7 days of biopsy being performed.

Bridge to HMX

Email techsupport@ezderm.com once you're registered with Healthmonix to request the Quality data bridge (won't be completed until end of year, but doing this now will put your practice at top of list once available)

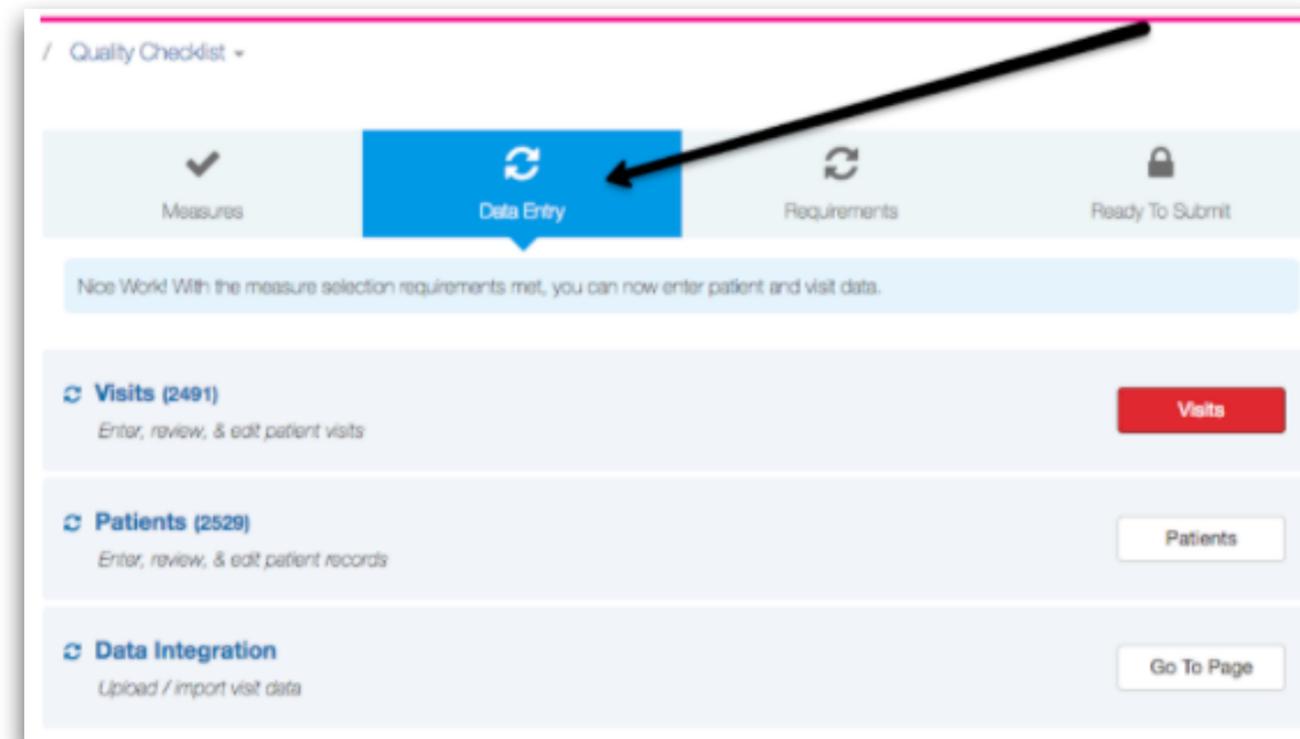

Provide the following information:

- Is the Practice reporting as a **group or individual**
- Individual NPI# for each provider reporting

Bridge to HMX

TIP: Make sure Data Entry section is unlocked in HMX dashboard before requesting bridge (will speed up the process)

Detailed instructions: [Healthmonix Registration and Quality Bridge Activation](#)
